Education

University of Toronto | GPA: 3.25/4.00

2019 - 2024

Honours Bachelor of Science in Computer Science and Geographic Information Systems

Toronto, Canada

Coursework

Algorithm Analysis Full Stack Development

- Data Structures
- Database Management
- Functional Programming

- Software Design
- Systems Programming Unit Testing

Experience

Software Developer Intern

May 2022 - Aug 2023

Environment and Climate Change Canada

North York, Toronto

- Implemented automation scripts using Python, Postman, and REST API in Azure to manage users, assign roles, and configure processes in DevOps projects, improving client service agreements by an approximate 20%.
- Overhauled Azure **pipeline** workflows using **CI/CD**, resolved critical **bugs**, and added client repository **backup** systems, causing a **10%** reduction in deployment times and improved **resource** management.
- Designed and engineered **user interfaces** for project decommissioning using **Tkinter**, streamlining the decommission process and reducing **manual** deletion time spent by **25%**.
- Assisted in managing ticketing using Azure's Kanban board, tracking 3+ tasks daily and supporting a team of 10.

Python Tutor

May 2020 - Aug 2020

Self-Employed

Greater Toronto Area

- Delivered weekly **Python** lessons to **2** senior secondary students interested in programming, covering **8** fundamental **beginner** and **intermediate** concepts.
- Conducted **16** sessions using **PyCharm** on syntax, data types, loops, conditionals, file input/output, libraries, exceptions, and object-oriented programming, providing **guidance** and **support**.

Projects

Dev-Nexus | React, Node.js, Express, GitHub Pages, VS Code

Jun 2024

• Etablished a responsive portfolio using **React** and **Node.js**, with **Express** integration and **50+** commits to ensure compatibility with **mobile**, **iPad**, and **web** views.

Wordle Frenzy | React, jQuery, Express, Fetch API, Web Sockets, Git, VS Code

Apr 2024

- Built a fully-functional multiplayer arena using **React** and **Web Sockets** for bi-directional communication, where users compete to guess a randomly generated word within a **60** second window.
- Ensured persistent user identities through cookie management, resulting in a 15% increase in session duration and maintaining primary identifiers across sessions.

Play-Portal | PHP, PostgreSQL, HTML5, CSS, VS Code

Feb 2024

- Created a **web** and **mobile-friendly** minigames site using the **MVC** pattern, implementing **3** distinct games and securing user authentication with **hashed** passwords.
- Structured a **PostgreSQL** database to facilitate **login/signup**, storing user info and scores for Rock-Paper-Scissors, Jumping Frog Puzzle, and Guess the Number, with detailed **user profiles** and **game stats** for up to **100** users.

Infrastructure Lifecycle Automation | Python, REST, JSON, Terraform, Azure, VS Code

Aug 2022

- Led the development of a **cloud-driven** project setup system using **Python** and Azure's **REST API**, improving project **addition** speed by **20%**, effectively creating **10+** projects monthly.
- Devised a **user access** management system that integrated Azure licenses with **role-based** access controls, overseeing unauthorized access incidents for over **350+** users across the organization.

Three Musketeers AI-Integrated | Java, JavaFX, JUnit, GitHub Actions, Eclipse

Nov 2021

- Designed an **AI-driven** board game in **Java** and **JavaFX**, employing a greedy AI with the recursive **minimax** algorithm and featuring **3** unique game board configurations.
- Added **3**+ creational design patterns and coordinated development with **GIT** branches, using agile workflows for **iterative** sprints and **continuous** integration, leading to timely updates.

Skills

Languages: Assembly, C, Haskell, Java, JavaScript/TypeScript, PHP, Python, Racket, R, Shell, SQL, YAML Libraries/Frameworks: Ajax, Django, Express, Fetch, HTML/CSS, jQuery, JUnit, Node.js, NumPy, PyTest, React Cloud Services/IDEs: AWS, Azure, Google Cloud, CLion, Eclipse, IntelliJ, PyCharm, VS Code Miscellaneous: Apache, CI/CD, ESRI, Git, LaTeX, MongoDB, PostgreSQL, Postman, REST, Terraform
